BOSQ OF WHISKEY BARONS FEAT KALETA: UP & DOWN

RELEASE DATE: 06/04/2013

Bosq from Whiskey Barons is back with more heat for the dancefloor in the form of a double 12" release. Both feature songs that will be on the upcoming full-length album but also include alternate takes and exclusives to the singles.

"Up & Down" continues the formula of classic sounding dance grooves with heavy Afro Latin influences throughout on this special all instrumental offering and features the reunion of Bosq with Nigerian composer / producer / singer **Kaleta**, who this time around remains an instrumentalist, handling guitar and the horn arrangements. The track - "Up & Down" went through so many revisions and mixes that it could only be properly represented with 2 very different versions. The **NYC 91** mix focuses on the dance floor with pulsing afro house drums and a scorching horn section, while the **Nigeria 76** mix keeps it organic and funky with a live kit taking over for the drum machines and a new arrangement.

Be on the lookout for Bosq's full-length album debut on Ubiquity in the summer.

- A1. Up & Down (NYC 91 Mix) 7:50**
- B1. Up & Down (Nigeria 76 Mix) 5:42**
