LUV N' HAIGHT EDIT SERIES VOL.8: PLAY MY GAME REMIXES FT. KON & OHMEGA WATTS

STREET DATE: JULY 21, 2015

Volume 8 of our ongoing **Luv N'Haight Edit Series** is our biggest one yet! Featuring another helping of **Kon** with co-headliner **Ohmega Watts**, taking turns remixing and reimagining another **Twilight** classic.

Supplied with the original stems culled from master tapes provided by Twilight's own **Lawrence Ross**, Kon's remix transforms the original into a mid-tempo boogie-house jam. The deep, minimal intro gives way to a swinging groove with the chorus interspersed in perfectly to sync with the tune. Also included is a dub version that's a bit more stripped down giving the groove a bit more room to stretch out.

Ohmega Watts' title for his remix is apropos as it's the type of song to get a house party jumping. With a classic 4 on the floor house beat accompanied by a groovy driving bassline, it's definitely guaranteed to shake your hips and move your feet!
