Tommy Stewart is known for his classic super funky disco productions on the Abraxas label. He created some of the scarcest and highly sought after disco records of all time - not the cheesy soulless disco of the late 1970s but the raw, funk-tinged good stuff!

This self-titled rare groove album includes the essential party classic "Bump and Hustle Music," which works on any dancefloor anytime - dope bassline and percussion plus a killer vocal irresistible vocal hook. The album also includes lesser known gems like "Riding High," and "The Fulton County Line."

Stewart also produced (with Marlin McNichols and Billy Wright) rare-groove disco records like Spirit Of Atlanta "Burning Of Atlanta", Sil Austin "Disco Music," and Tamiko Jones "Let it flow."
