“Adventures” is the debut full-length album by French producer **Dandy Teru**. His opus is chock-full of notable guest vocalists and MC’s and also includes remixes by **Tall Black Guy**, Belgian production duo **Monkey Robot** and his partner-in-crime **Quiet Dawn**.

In Dandy Teru’s own words: *“Adventures is a journey. On every side of the project, this opus is an incredible journey into a thema, a group of people (guests and co-directors) and friends, and a travel alone inside my own psychology. It’s a witness testimony of a global state of mind, with the thema as the first stone of it: dreams.”* The album is an eclectic mix of downtempo, Nu Jazz, “Beat” music, Soul, House and Hip-Hop. Featuring up and coming talent such as **Sami K** who laces the track **Burned** with his blues-inflected vocals, Chicago MC **Rita J** on **Wake Up Now** and **Sarah Gessler** on **Fragile Things**, alongside renowned and well-known MC’s **Moka Only**, **Ty** and **Count Bass D**.

Hailing from Orleans, France, Dandy Teru wears many hats; multi-media artist, artistic director, radio host and selector on **Laid Back Radio**, but foremost as a music producer. He’s been slowly making a name for himself yet still somewhat working in the shadows, with connections and contributions to a slew of young and burgeoning French artists in the Hip-Hop scene such as **Tchad Unpoe**, **Pumpkin**, **Supafuh**, and fellow producers **Monkey Robot** and **Quiet Dawn**. His production aesthetic however hasn’t gone unnoticed with his inclusion in **TBG’s (Tall Black Guy) Tempo Dreams** compilation for **Bastard Jazz** featuring new producers of note as well as a track on the **Do The Dilla 2012** album.
