SHIP DATE: 10/15/2013

The sixth volume in our Luv N'Haight Edit Series featuring 2 hard-hitting tracks from Turner Brothers is a throwback to the classic edits sound courtesy of Sun Sound Records owner, edit master and renowned record collector Paolo Scotti.

With several recent edits under his belt including classics by **Touch of Class**, **Joe Thomas**, and **Ultrafunk** as well as a compilation of Rare Disco and Soul from his **Sun Sound Records** label imprint based in Italy, the time was right to tap him as the next producer for our ongoing series of edits from the Luv N'Haight catalog.

Running In The Rain lends itself perfectly to Paolo's aesthetic giving the amazing groove of the original room to breathe, focusing on the luscious driving rhythm and killer horns, taking the original that clocks in at just under 4 minutes and stretching it out almost hitting the 5 1/2 minute mark. His treatment of **Cause I Love You** is another example of "less is more" as the intro is spaced out as if to perfectly sync with the DJ as he drops the track allowing for a seamless transition. Paolo takes an already perfect track and gives the dancefloor and the listener an additional treat with an extended edit over 7 minutes long!
