Attracting much fanfare and garnering tons of plays by tastemakers, radio stations-in-the-know, and DJ's alike, the first **Electric Peanut Butter Company** album was jar-full of '60s psychedelic goodness. But guess what? The dynamic duo of **Shawn Lee** and **Adrian Quesada** are back with **Vol.1** of their **Trans-Atlantic Psych Classics** masterpiece!

Adrian Quesada is a man on a mission! He has been killing it in both the recording studio and on the live stage. While on his **Brown Sabbath (Brownout)** & **Spanish Gold** albums/tours he found stolen moments in hotel rooms whilst on tour to send musical compadre Shawn Lee tracks for the second Electric Peanut Butter Company album entitled **Trans-Atlantic Psych Classics Vol 1** !!!!!

The band of brothers created the music in the same fashion as their debut but with a noticeably fuzzier more dirtier edge. The album starts with **Flexi Funk**. On this track the drums were recorded straight to Flexi disc on a **1950's tube machine** which sounds other worldly and crusty as f#@k!!!

Other highlights include the psych pop gem **Spread The Jam** which declares the duos intentions. The album has a more heavy psych vibe than it's predecessor but deftly continues a logical progression for **Los Hermanos Adrian Quesada & Shawn Lee**. Two of the hardest working musicians in show bizness and from the looks of it, just getting started!
